INDEX OF AUTHORS AND PAPERS

Abdalla, M.S., Statistical properties of a transformed Tavis–Cummings model 179 (1991) 131
Anglès d'Auriac, J.C., Maillard, J.M. and Wu, F.Y., Three-state chiral Potts models on the triangular lattice: a Monte Carlo study 179 (1991) 496

Bagnoli, F., Droz, M. and Frachebourg, L., Ordering in a one-dimensional driven diffusive system with parallel dynamics 179 (1991) 269
Ban, M., Phase variable and phase relaxation processes in the Liouville space 179 (1991) 103
Barak, L. and Braester, C., Searching for fractures in a fracture network – a game theory approach 179 (1991) 311
Boudh-Hir, M.E. and Mansoori, G.A., Theory for interfacial tension of partially miscible liquids 179 (1991) 219
Braester, C., see Barak, L. 179 (1991) 311

Capel, H.W., see Elezović-Hadžić, S. 179 (1991) 39
Cenedese, P. and Gratias, D., Multicomponent formalism in the mean-field approximation: a geometric interpretation of Chebychev polynomials 179 (1991) 277
Chen, Z.Y., see Tang, S. 179 (1991) 344
Copeland, E., Haws, D., Holbraad, S. and Rivers, R., The statistical mechanics of interacting strings 179 (1991) 507
Cukier, R.I., see Morillo, M. 179 (1991) 411

Dekker, H., Multisite spin hopping analysis of multilevel dissipative quantum tunneling and coherence at finite temperatures. IV. The biased case 179 (1991) 81
Drew, D.A., Effect of particle velocity fluctuations in particle–fluid flows 179 (1991) 69
Droz, M., see Bagnoli, F. 179 (1991) 269

Elezović-Hadžić, S., Milošević, S., Capel, H.W. and Post, Th., Critical exponent γ for a class of directed walks at the fractal to Euclidean crossover 179 (1991) 39

Fechner, B., see Jarzęcka, H. 179 (1991) 288
Ferreira, P.G. and Telo da Gama, M.M., Global phase diagram of a confined uniaxial nematic 179 (1991) 179
Frachebourg, L., see Bagnoli, F. 179 (1991) 269

Gratias, D., see Cenedese, P. 179 (1991) 277

Haws, D., see Copeland, E. 179 (1991) 507
Holbraad, S., see Copeland, E. 179 (1991) 507

Jarzęcka, H. and Fechner, B., Magnetic and structural phase transitions in a dilute magnet with configurational degrees of freedom. II. Temperature–concentration, phase diagrams 179 (1991) 288

Jayannavar, A.M., Survival probability and fluctuations in random trapping models 179 (1991) 243
Klein, L., A percolation model for the role of quenching temperature in doped high-temperature superconductors 179 (1991) 62
Klimontovich, Yu.L., Some problems of the statistical description of hydrodynamic motion and autowave processes 179 (1991) 471
Kolesík, M. and Šamaj, L., On correlation functions of two-state vertex models on the honeycomb lattice 179 (1991) 145

Li, J. and McQuistan, R.B., Shift operator matrix-size reduction through symmetry considerations 179 (1991) 560

Maillard, J.M., see Anglès d'Auriac, J.C. 179 (1991) 496
Manna, S.S., Critical exponents of the sand pile models in two dimensions 179 (1991) 249
Mansoori, G.A., see Boudh-Hir, M.E. 179 (1991) 219
Mantegna, R.N., Lévy walks and enhanced diffusion in Milan stock exchange 179 (1991) 232
McQuistan, R.B., see Li, J. 179 (1991) 560
Meakin, P., An Eden model for the growth of adaptive networks 179 (1991) 167
Milošević, S., see Elezović-Hadžić, S. 179 (1991) 39
Milošević, S., see Stošić, B. 179 (1991) 159
Miranda, E.N., Droplet dynamics in the 3D Ising model 179 (1991) 340
Morillo, M., Cukier, R.I. and Tij, M., A projection operator approach to a dissipative two-level system 179 (1991) 411
Morillo, M. and Tij, M., Relaxation in a dissipative two-level system: a projection operator approach 179 (1991) 428

Neshev, N.M., see Proinov, E.I. 179 (1991) 553
Nienhuis, G., see Van Enk, S.J. 179 (1991) 199

Pandey, R.B., Cellular automata approach to interacting cellular network models for the dynamics of cell population in an early HIV infection 179 (1991) 442
Parisi, G. and Pietronero, L., Theory of strechted exponential relaxation and critical behavior at depinning for charge density waves 179 (1991) 16
Pietronero, L. and Versteeg, M., Theory of the threshold field for the depinning transition of a charge density wave 179 (1991) 1
Pietronero, L., see Parisi, G. 179 (1991) 16
